

COVID-19 Testing and Education

Available by-request on farms located in San Mateo County for you and your employees*

COVID-19 TESTING

- Upon your request, staff from the San Mateo County Public Health Testing Team and staff from a community based organization can come to your farm to test you and your employees.
- Typically, an individual swabs their own mouth using a Q-tip under the Testing Team's observation
- Test results are available within ~72 hours. Results are texted or emailed to the individual being tested, and a 1-800 number is also available to call to get results.
- We will bill an individual's insurance; there will be no costs passed onto the individual. Should someone not have insurance, they will not be turned away.
- **If you are interested/have questions, please contact Mary Fisher at San Mateo County Public Health mefisher@smcgov.org or 650-542-1912.**

COVID-19 EDUCATION

- Educating employees about hand washing, social distancing, and available resources takes about 20-30 minutes.
- Typically, the session is done by San Mateo County's Public Health's Field Medicine Nurse & staff from a community based organization is also present.
- **If you are interested, please contact Irene Pasma at San Mateo County Healthcare for Homeless/Farmworker Health ipasma@smcgov.org or (650) 573-4741.**

For more Information go to: www.smcgov.org/agwm and click on the banner for Covid-19 Resources

Testing set up varies from farm to farm; we work with you to make everything go as smoothly and quickly as possible.

We work with you to identify a day/time that works. We provide fliers and leave plenty of time for questions.

**We will do our best to accommodate all requests, but there may be certain situations where it is not possible to provide education and/or testing at your farm.*
